Activities in the Areas:	
- Further Education	Learning SQL language used to interact with relational database and coding.
- Research	Behaviors of producers (i.e., smallholder farmers) in agricultural production.
- Consultancy	
How are personal research activities reflected in teaching activities?	Drawing on my research findings, I can apply real-world examples to illustrate theoretical concepts, making them more engaging and meaningful to students. Research-based teaching is helpful because (i) it fosters critical thinking and problem-solving skills in students by exposing them to different perspectives and encouraging them to analyze complex issues and (ii) involves active learning strategies, such as group discussions, case studies, and simulations, which can enhance student engagement and learning.

Work experience:	
- General	Conduct research at a university, publishing papers in academic journals and presenting at conferences.
- Activities as an Expert:	
Publications:	Investigating intellectual capital: The role of intellectual property rights reform (https://doi.org/10.1080/23322039.2022.2106630)
